## Department of Electrical Engineering & Computer Science

### Change of Major Request

Students are admitted to CoE, CS, EE or IT M.S. programs based on their undergraduate degree and subsequent training or job experience.

To change majors students must meet with their advisor to develop a new plan of study and submit this form for approval. In many cases, additional undergraduate work will be required to provide adequate preparation for the new major. Generally these deficiency courses will not count towards the graduate degree.

If the request is approved you will update your plan of study to include any undergraduate preparation classes suggested by you advisor or the EECS graduate committee.

Name: \_\_\_\_\_ KUID \_\_\_\_\_
